How to Turn AP Into a Profit Center

Region 3 will be hosting a FREE web-based presentation

This webinar will detail a comprehensive payment strategy to capitalize on discounts, reduce costs, and maximize revenue, using each payment type to its utmost potential

KEY SUMMARY OF THE PRESENTATION

Unlock the value of your Supplier list and increase the efficiency of your team's accounts payable and cash management capabilities. In this webinar, you will learn how Supplier analysis and a well-defined payment strategy can impact your spend management function and will allow your organization to:

- Leverage process efficiencies within automation solutions.
- Analyze and segment your Supplier list for maximum payment effectiveness.
- Maximize commercial card payments and other e-payment types that generate revenue.
- Capture early payment discounts and utilize supply chain finance to earn revenue without impacting your short-term cash.
- Reduce costs related to paper, postage, check writing and other payment fees.

About the Speakers:

Kurt Wachtendorf, APSC, CDIA+ - Kurt provides more than 20 years of experience designing and implementing "paperless" solutions for 250+ organizations in a variety of industries including finance, transportation, healthcare, manufacturing, distribution, retail, oil and gas, education and state and local government. After an award-winning career at IBM, Kurt has developed an outstanding reputation as a leading Certified Document Imaging Architect (CDIA+) in the enterprise content management (ECM) industry. Now with Commerce Bank, Kurt works with clients to evaluate their current Accounts Payable processes and create an AP Automation Analysis "blueprint." Kurt is a featured speaker for numerous organizations including The Institute of Finance & Management (IOFM), **The Accounts Payable Network (TAPN)**, The Institute of Financial Operations (IFO) and the Association for Information and Image Management (AIIM). His popular "7 Steps to Go Paperless" workshops guide organizations in going paperless with the Purchase-to-Pay process.
